I had an amazing time as a speaker at [#SQLKonferenz2023](#) with many mindblowing talks, forwarding conversations and super interesting people!

Thanks to my Co-Speaker [Alexander Karl](#) for opening that door for me and supporting my ambitions in becoming a value-adding part of the [#PASSCommunity](#)!

Furthermore special thanks to [Gabi Münster](#) and [Rie Merritt](#) for an amazing conversation and guidelining advices about women in tech. Looking forward to stay tuned about this!

Also lots and lots of thanks to [Adam Saxton](#) for supporting a little fan moment and chatting about different topics around Power BI and more! Same to [Buck Woody](#) for your advices and support around growing in business, giving lectures and other super interesting topics!

I also will not forget to say thank you to [Georgia Thume](#) and her Team from Oraylis for adopting me to their group and letting me feel welcome!

It was a pleasure and I really appreciate to have met you all!

Last but not least many thanks to all the sponsors and organisers of the conference, especially all members from [SQL Konferenz](#) who made these days possible. You do a great job!

Was a pleasure to meet you and I'm excited for the journey ahead of you. Thank you for becoming a speaker. Sharing your knowledge and experiences with other to help them grow is an amazing thing. It can be an anxious, scary, thrilling and special experience. The SQL/Power BI/ Fabric community is like a big family and there are so many across the world that will I ... [mehr anzeigen](#)
